HOWDY CHARTER LEADERS!

We're thrilled to have you join us at the stunning Marriott Marquis in the heart of Houston—a city as dynamic and forward-looking as our movement. This year's theme, Growing Toward Tomorrow, honors 30 years of bold growth in Texas charter schools and sets our sights on the future we're building together.

Over the next three days, get ready to plant new ideas, cultivate connections, and harvest inspiration. Our sessions are packed with fresh thinking—led by trailblazing educators, visionary leaders, and trusted partners—all designed to help you thrive as a professional and strengthen your school community.

Before you relax along Buffalo Bayou or snap that perfect photo on the iconic Texas-shaped lazy river, dive into a conference experience rooted in purpose and powered by possibility.

Your presence here signals something powerful: a commitment to progress, equity, and a future where every child in Texas can access a world-class education.

Let's celebrate 30 years.
Let's connect with purpose.
Let's grow toward tomorrow.

The Conference Team

30 YEARS OF SUCCESS

AND THE SUNNY FUTURE AHEAD FOR TEXAS PUBLIC CHARTER SCHOOLS

In 1995, the Texas Legislature passed Senate Bill 1 with strong bipartisan support—planting the seeds of transformational change in public education.

This law created a new kind of school, the public charter school, that could unleash the power of creativity and flexibility to meet students’ diverse needs. Lawmakers specified five key purposes of public charter schools that have guided our growth for three decades.

Our members have been achieving these goals. You’ve changed students’ lives, empowered educators, transformed communities, and made the state of Texas more prosperous.

That deserves some recognition.

TPCSA invites you to join us in celebrating the 30th anniversary of public charter schools throughout the year.

As part of that celebration, our team will publish new research and showcase some of the incredible stories that define the charter school legacy—and point toward sustained future success.

THE POWER OF PUBLIC CHARTER SCHOOLS: “THINKING BIG”

Roger Ramirez graduated from George I. Sanchez Charter School in 2004 and attended the University of Texas at Austin. He returned to his public charter high school as a teacher and now works for Rice University in the Office of STEM Engagement.

What I loved most about Sanchez was getting to know teachers from various backgrounds, that one-on-one interaction that I was able to have with the smaller classes. And the campus administrators were very willing to help, to push students to think big.

It was honestly very surreal for me to not only graduate high school, but to be accepted into a university. For many of my peers and family members, college was never an option. Being accepted into a university like UT Austin with a scholarship really, really changed my life.

My charter school opened my eyes to what’s really out there, what all students need, and what all people are capable of when given options and support.

CELEBRATING TOGETHER

As we mark **30 years of public charter school growth in Texas**, we're not just looking back—we're celebrating how far we've come and where we're headed next. Throughout the conference, you'll see this milestone reflected in joyful, creative ways:

SUPPORT TPCSA

TPCSA is powered by the dedication of our members and the generosity of sponsors, foundations, and individuals like you. Last year, 70% of our operating budget was funded through membership dues, corporate sponsorships, and the annual conference. The remaining 30% was raised through individual and foundation philanthropic support.
